

As the COVID19 pandemic continues, many businesses are **required by law** to keep a visitor log-sheet – to be used for COVID19 contact-tracing purposes.

But **Paper** sign-in sheets and log-books pose a real **risk** to **your business**:

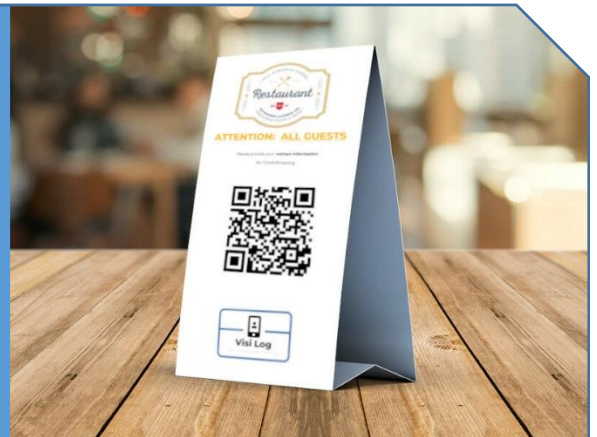

- Multiple staff and customers use the same pen – potentially spreading viruses/pathogens.
- Businesses are responsible to keep customers' information private. Paper lists can be easily read by other customers, lost, or stolen.
- Contact collection takes time – adding many extra hours to the monthly payroll.

There's a **better** way to manage your visitors' **contact information** ...

Visi-Log™

Customers use **their phone** to submit their **contact info**.

No pen • No paper • **No risk**

Benefits of Visi-Log™:

- It **eliminates** the pen/paper as a possible **infection vector**
- It **protects visitors privacy** – because nobody can see their contact info
- It **reduces administration** and record keeping at your location
- It remembers and **auto-fills** your information – great for employees and frequent customers!
- It provides visitors with **reassurance** that they will be contacted directly if they might have been exposed to COVID19.

Privacy:

- Visitors' contact information can only be accessed by an authorized NS Health representative
- Data is **NOT** used for marketing; only for notification in the event of potential COVID19 exposure
- Mobile data is encrypted using a 128bit SSL certificate and is purged from the system after 28 days

MED Traffic Plan

\$149 /month

Manage up to 500 contacts / day

HIGH Traffic Plan

Custom Pricing

Manage 500+ contacts / day

For only about **1-penny per visitor**, monthly plans are based on the average number of daily visitors you expect at your business. All plans include the same features:

- A unique QR-Code and contact form – specific to your location
- Unlimited printable PDF notices for your visitors to easily scan and use
- Secure transmission and storage of your visitors' private contact data
- Guaranteed complete data deletion after 28 days
- Contact lists will be quickly provided to the local / regional health authority in the event of a potential COVID19 exposure at your location.
- Visitors' contact data remains completely private and will not be sold, shared, or used for marketing or any purpose other than COVID19 contact notification and tracing by public health officials.

TRY IT.
